Thank you for the opportunity to comment on Item 8B pages 37-143 Consideration of Final Development of Villages VI Subdivision.

Please be aware that property has been farmed in previous years. Central California Irrigation District doesn't object to the development, however we do ask that before any work is done, all irrigation and/or drainage facilities in the area must be identified by the developer and protected from impact or interruption according to our specifications as lands continued to be farmed to the West of this development, both in CCID as well as Class II lands.

If you have any questions, please do not hesitate to contact the undersigned.

Sincerely yours,
